

**Government of Pakistan**  
**Pakistan Digital Authority (PDA)**  
**Expression of Interest (EOI)**

**Onboarding of firm for the Provision of Management and Operational Support Services**

The Government of Pakistan, under the Digital Nation Pakistan Act, 2025, has established the Pakistan Digital Authority (PDA) to lead and implement the country's digital transformation agenda. Under this Act, the PDA serves as the central implementing body responsible for formulating standards, harmonizing digital initiatives across all tiers of government, and ensuring the effective execution of the National Digital Masterplan (NDM). PDA serves as the custodian of the NDM and, among other things, develops frameworks for Digital Public Infrastructure, Data/AI Governance, & Citizen Experience.

To ensure the smooth functioning of PDA's operations and the timely delivery of its mandate, it is necessary to establish an efficient mechanism for the procurement of services, covering both planned and contingent requirements. Accordingly, PDA intends to pre-qualify a panel of reputable firms to provide Management and Operational Support Services under an Open Framework Agreement through a competitive bidding process.

**SUBMISSION DETAILS**
