

Government of Pakistan

Pakistan Digital Authority (PDA)

## Individual Consultant Required

The Pakistan Digital Authority (PDA) is a statutory body established under the Digital Nation Pakistan Act, 2025, mandated to lead the country's transition into a digitally empowered nation. As the apex regulatory and implementation body, the Authority is responsible for formulating standards, harmonizing digital initiatives across all tiers of government, and executing the National Digital Masterplan to foster a robust Digital Economy, Digital Society, and Digital Governance.

PDA functions as the primary enabler of the national digital ecosystem through its three strategic roles: Data & AI Regulator, Citizen Experience Office, and Digital Transformation Authority. To execute this ambitious mandate, the Authority employs a highly specialized workforce comprising experts in Data Science, Digital Systems, Solution Architecture, Cyber Security, and AI.

Accordingly, PDA invites applications from qualified professionals for engagement as a **Principal Digital Systems & AI Consultant** to support the design and development of high-performance, scalable, and secure AI-enabled smart services and platforms.

- Detailed TORs are available at <https://www.pda.gov.pk/careers.php>
- Interested Candidates must provide information demonstrating that they possess the required qualifications & relevant experience to perform the expected Services, as outlined in the TORs.
